

A. Quinton White, Jr., Ph.D., is Executive Director, Marine Science Research Institute and Professor of Biology and Marine Science at Jacksonville University. He has written numerous research and technical papers or reports and received grants and contracts to support marine research at JU. Currently he is conducting research on the history of human impact on the Florida environment and especially on the St. Johns River with a focus on manatees and water quality issues. Dr. White has been active in the Jacksonville community. He writes a monthly column in the Florida Times-Union called “River Life” focusing on river life and related issues. He serves as a consultant to the City of Jacksonville’s Waterways Commission and a subject matter expert to the City Council Special Committee on Resiliency Subcommittee on Environmental Planning.
