On October 16, WJCT Public Media successfully launched *Jacksonville Today*, a nonprofit local journalism service that includes a weekday email newsletter and forthcoming news website. The first phase of JAX TDY is a week-day daily newsletter delivered first thing in the morning featuring:

- The local news you need to know about, from a variety of sources;
- Original reporting you won't see anywhere else, sometimes based on input from our readers;
- A heads-up on how to get connected with local decision making;
- Exclusive analysis and perspectives on local politics, culture, and urban planning from a

diverse set of contributors;

- Calendar of cultural happenings;
- Photo essays that capture our region through the eyes of local photographers;
- And more (but if you want to just scan the top news of the day, that's OK too).

WJCT Public Media's goal is to help our readers feel more connected to where we live and to each other, so they can make decisions in a more informed way. Nearly 6,000 citizens have signed up to receive *Jacksonville Today* in their emailboxes each morning, and have maintained a well-above-average industry open rate of 54% since the launch in October.

*Jacksonville Today* builds on WJCT Public Media's success with "vertical" digital publications, such as ADAPT, focused on the regional response to climate change and sea-level rise, and *The Jaxson*, focused on the urban fabric of the region and published in partnership with Modern Cities, Inc. *Jacksonville Today* also spotlights the work of WJCT News' content-sharing partners, including *The Florida Times-Union*, *News4Jax*, and the *Jacksonville Daily Record*. A full *Jacksonville Today* website will follow in the spring of 2022 as reporting expands. To learn more about the *Jacksonville Today* newsletter and subscribe, visit [jaxtoday.org](http://jaxtoday.org).

With a variety of community partners, WJCT Public Media hosted five free lunch and learn events at WJCT Studios covering health, retirement, and financial topics including:

- RSV
- Heart Attacks
- Strokes
- Memorial Planning

Lunch & Learn community education events brought together doctors and leading medical experts who shared the most recent research and potential treatments for a variety of health concerns. Other experts and skilled professionals with finance backgrounds educated citizens about retirement options and wealth management. Over 175 citizens, including students, caregivers, patients, and their family members, attended for a variety of reasons. Each gained invaluable information, that is not always accessible, at no cost to the general public.
