

Sunil Joshi, MD was born and raised in Jacksonville. He grew up in Arlington and attended Terry Parker High School. After graduating in 1990, he attended the University of Florida where he earned a BS in chemistry in 1994 and then entered the University of Florida College of Medicine. After graduating, Joshi attended the Mayo Clinic Internal Medicine Residency Training program in Jacksonville. He completed his residency in

2001 and served as chief resident in 2001-02. Dr. Joshi received his allergy/immunology fellowship training at the University of Rochester in New York.

He spends his own time teaching residents and medical students at the Mayo Clinic about allergic and immunologic diseases and has appeared on WJXT's "Morning Show" many times to discuss allergy related issues. Joshi contributes to the community's health by serving as editor-in-chief of Northeast Florida Medicine, the only peer-reviewed medical journal in Florida, as the president of the Duval County Medical Society Foundation and on the Board of Directors for the Florida Chapter of the American Lung Association. Currently Dr. Joshi is a co-chairman of the #FluVaxJax initiative of the Duval County Medical Society Foundation.
