Chad Neilsen, MPH is the director of accreditation and infection prevention at UF Health Jacksonville, and a faculty member for the UF College of Medicine in Jacksonville. He is responsible for oversight of the facility's federal accreditation and UF Health Jacksonville's response to COVID-19. He's worked as an epidemiologist in state, county, and academic levels and has 10+ years in the field of infectious disease epidemiology. His infection prevention leadership has been nationally recognized, and he is a fellow of the Association for Professionals in Infection Control and Epidemiology (APIC).

Chad also serves as a public health officer for the Florida Air National Guard. His role in military epidemiology has included oversight of numerous outbreak and pandemic responses, including the Ebola virus disease outbreak of 2014, and more recently, in support of Florida's response to COVID-19. An Orlando native, Chad holds a bachelor's degree in biology from the University of Central Florida, and a Master of Public Health-Epidemiology degree from the University of Florida.
